DETAILED ACTION

This Office Action is in response to an amendment filed 5 February 2008 in which claim 5 was amended. Claims 1-5 and 7 are pending.

Response to Arguments

1. Applicant's arguments, see page 8-page 9, paragraph 1, filed 5 February 2008, with respect to claim 1 have been fully considered and are persuasive. The rejection of claims 1, 3-5 and 7 has been withdrawn.

Election/Restrictions

2. Claim 1 is allowable. The restriction requirement among species, as set forth in the Office action mailed on 16 May 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 2, directed to a non-elected species is no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Drawings

3. Replacement drawings were received on 5 February 2008. These drawings are acceptable.

Allowable Subject Matter

4. Claims 1-5 and 7 are allowed.

Allowable Subject Matter

5. The following is an examiner's statement of reasons for allowance:

Claims 1-5 and 7 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest a display apparatus including an emissive spatial light modulator, quarter waveplate, linear polarizer and “birefringent lens positioned to receive light from the spatial light modulator arranged to direct light of a first polarization component into a first directional distribution and to direct light of a second polarization component into a second directional distribution different from the first directional distribution” arranged and cooperating in the manner as particularly recited in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
